Numatic 38mm Antistatic - Stainless Steel Tube - Straight

Variant code: 16-602929

Numatic 38mm Antistatic Stainless Steel Tube - Straight is a **genuine vacuum cleaner wand component** designed for use with compatible **Numatic 38mm vacuum systems**. Manufactured from high-quality stainless steel and incorporating antistatic properties, this professional-grade tube delivers reliable performance, durability and efficient airflow for commercial and industrial cleaning applications.

The straight tube design provides a secure connection between vacuum hoses, extension tubes and cleaning tools, helping to create a robust and efficient vacuum assembly. Its antistatic construction helps minimise the build-up of static electricity during operation, making it particularly suitable for environments where fine dust and debris are regularly collected.

Constructed from durable stainless steel, the tube offers excellent resistance to corrosion, wear and impact damage, ensuring long service life even under demanding daily use. The smooth internal design helps maintain optimum airflow, supporting strong suction performance and efficient debris collection.

As a genuine Numatic accessory, the 38mm Antistatic Straight Tube ensures full compatibility with a wide range of Numatic vacuum cleaners and accessories, helping maintain professional cleaning standards and dependable machine performance.

Product Features

- Genuine Numatic stainless steel vacuum tube
- 38mm diameter connection
- Straight tube design
- Antistatic construction
- Durable stainless steel manufacture
- Compatible with Numatic 38mm vacuum systems
- Maintains efficient airflow and suction
- Professional-grade construction

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Reduces static build-up during vacuum operation**
- **Provides strong and reliable accessory connections**
- **Offers excellent durability and long service life**
- Maintains optimum vacuum performance
- Resistant to corrosion and daily wear
- Suitable for demanding commercial cleaning environments
- Compatible with a wide range of Numatic accessories
- Genuine compatibility ensures dependable operation

Technical Characteristics

- Product Type: Vacuum Cleaner Tube
- Diameter: 38mm
- Material: Stainless Steel
- Design: Straight End
- Construction: Antistatic
- Compatibility: Numatic 38mm Vacuum Systems
- Genuine Numatic Accessory
- Commercial and Industrial Grade Performance

Applications

Numatic 38mm Antistatic Stainless Steel Tube - Straight is ideal for **commercial cleaning contractors, industrial facilities, warehouses, workshops, manufacturing plants, schools, healthcare environments and public buildings** using compatible **Numatic 38mm vacuum cleaners**. Suitable for connecting hoses, extension tubes and floor tools for the collection of **dust, dirt, debris and fine particles**, it provides reliable performance and long-lasting durability in professional cleaning applications.
