Numatic 38mm Combination Floor Tool 300mm

Variant code: 16-602137

Numatic 38mm Combination Floor Tool - 300mm is a genuine Numatic vacuum accessory designed to provide versatile cleaning performance across both hard floors and carpeted surfaces. Featuring a robust commercial-grade design and a wide 300mm cleaning path, this combination floor tool allows operators to seamlessly transition between floor types without changing accessories, improving productivity and efficiency.

Designed with a **300mm cleaning width**, the floor tool delivers excellent floor coverage while maintaining smooth manoeuvrability around furniture, fixtures and obstacles. The combination design incorporates retractable brush strips that can be adjusted depending on the surface being cleaned. Brushes can be extended for effective hard floor cleaning or retracted for optimal carpet vacuuming performance. The larger **38mm fitting** supports increased airflow and suction, making it particularly suitable for commercial and industrial vacuum cleaning applications.

Built to withstand the demands of daily professional use, the Numatic Combination Floor Tool combines durability, versatility and reliable performance. Compatible with all vacuum cleaners using a 38mm accessory system, it is an essential tool for maintaining clean, professional environments with mixed flooring surfaces.

Product Features

- **Genuine Numatic combination floor tool**
- **300mm cleaning width**
- **38mm accessory compatibility**
- Suitable for carpets and hard floor surfaces
- Retractable brush strip system
