Numatic Airo Turbo Head Floor Tool

Variant code: 16-907424

Numatic Airo Turbo Head Floor Tool is a **high-performance vacuum floor tool** designed to deliver enhanced carpet cleaning through powerful brush agitation and efficient debris removal. Using airflow-driven turbine technology, the Airo Turbo Head rotates its internal brush as you vacuum, helping to lift embedded dirt, dust, hair and fibres from deep within carpet piles for a superior cleaning result.

Ideal for both commercial and domestic environments, the Airo Turbo Head combines powerful suction with mechanical brushing action to improve cleaning performance on carpets and rugs. The **rotating brush** helps loosen stubborn dirt and pet hair that standard floor tools may struggle to remove, while maintaining smooth manoeuvrability across floor surfaces. The turbine-driven design requires no electrical connection, making it a convenient and reliable accessory for everyday vacuum cleaning tasks.

Manufactured to Numatic's high standards of quality and durability, the Airo Turbo Head is built to withstand frequent use while maintaining **excellent cleaning efficiency**. It is particularly effective in environments where carpets require deeper cleaning and improved debris extraction, helping to maintain cleaner, fresher and more hygienic floor coverings.

Product Features

- **Air-driven turbo brush floor tool**
- Rotating brush agitates carpet fibres during cleaning
- Helps lift embedded dirt, dust and pet hair
- No electrical connection required
- Improves carpet cleaning performance
- Durable construction for long service life
- Genuine Numatic floor care accessory

Product Benefits

- Provides deeper carpet cleaning results
- Improves removal of hair, fibres and stubborn debris
- Enhances vacuum cleaning efficiency
