Numatic Cleantec Extraction Hose - 3m

Variant code: 16-601299

Numatic CleanTec Extraction Hose - 3m is a genuine Numatic replacement hose designed for use with CleanTec carpet and upholstery extraction machines. Engineered to deliver reliable solution and recovery performance, this professional-grade hose provides the flexibility and reach required for efficient carpet, upholstery and fabric cleaning applications.

Featuring a **3 metre length**, the extraction hose allows operators to clean larger areas and access furniture, stairs, upholstery and confined spaces without constantly repositioning the machine. Designed to maintain consistent airflow and solution delivery, the hose supports optimum extraction performance for effective dirt removal and faster drying results. Its flexible yet durable construction is built to withstand the demands of daily commercial cleaning operations.

Manufactured to genuine Numatic standards, the CleanTec Extraction Hose offers secure connections and dependable performance throughout intensive cleaning tasks. Whether replacing a worn hose or maintaining spare equipment for uninterrupted operation, this hose helps maximise productivity and extend the service life of your extraction machine.

Product Features
