

Numatic CT370-2 Carpet Cleaner with Hose and Stainless Steel Wand – 240V

Variant code: 16-CT370-2

Numatic CT370-2 Carpet Cleaner with Hose and Stainless Steel Wand is a compact and professional **wet and spray extraction cleaning machine** designed for effective deep cleaning of **carpets, upholstery and vehicle interiors**.

Combining a powered cleaning solution supply with efficient wet pick-up in one versatile machine, the CT370 provides a practical solution for demanding professional cleaning applications.

The CT370 features Numatic's professional **TwinFlo bypass vacuum motor** and **PowerFlo pump system**. Cleaning solution is injected deep into carpet fibres to loosen embedded dirt before being efficiently extracted, providing a continuous **deep-cleaning cycle**. Its practical **tank-within-a-tank design** provides a simple, clean and efficient system that is easy to fill and quick to change during operation.

Supplied with a professional **A40A accessory kit and stainless steel tube set**, the CT370 is equipped for a variety of cleaning tasks. An **ergonomic carry handle and large rear wheels** make transportation easier while providing stability during use. With a **9L wet capacity, 6L extraction capacity and 10m power cable**, this compact machine combines professional cleaning performance with excellent versatility and convenient storage.

Product Features

- **Professional wet and spray extraction cleaner** for deep cleaning applications
- **4-in-1 cleaning capability** suitable for carpets, upholstery and valeting
- **TwinFlo bypass motor** provides powerful and reliable wet pick-up performance
- **PowerFlo pump system** injects cleaning solution deep into carpet fibres
- **Tank-within-a-tank design** provides easy filling and quick changing
- Supplied with a professional **A40A accessory kit**
- Includes a **stainless steel tube set**
- **10m power cable** provides an extensive

- working range
- **Large rear wheels** provide stability and ease of movement
- **Ergonomic easy-carry handle** assists transportation
- Compact design allows **convenient storage and transportation**

Product Benefits

- **Powerful spray extraction action provides effective deep cleaning of carpets and upholstery**
- **TwinFlo vacuum and PowerFlo pump systems combine powerful solution delivery with efficient wet recovery**
- **Versatile 4-in-1 functionality allows one machine to tackle multiple professional cleaning applications**
- **Tank-within-a-tank system makes filling, emptying and changing cleaning solution quick and straightforward**
- Professional accessories provide the **tools required for a wide range of cleaning tasks**
- **10m power cable and 26.8m cleaning range** provide excellent reach across larger areas
- Compact dimensions and an ergonomic handle make the machine **easy to transport and store**
- Robust professional construction provides **dependable performance for regular commercial use**

Technical Characteristics

- **Product Type:** Carpet & Upholstery Extraction Cleaner
- **Model:** CT370-2
- **Range:** CleanTec
- **Power Supply:** 230V AC 50/60Hz
- **Vacuum Motor:** 1 x 1000W TwinFlo
- **Pump System:** PowerFlo
- **Wet Capacity:** 9L
- **Extraction Capacity:** 6L
- **Airflow:** 45.5L/sec
- **Suction:** 2600mm
- **Power Cable:** 10m
- **Cleaning Range:** 26.8m
- **Dimensions:** 355 x 355 x 510mm
- **Weight:** 11.23kg
- **Accessories:** A40A Professional Accessory Kit & Stainless Steel Tube Set

Applications

Numatic CT370-2 Carpet Cleaner with Hose and Stainless Steel Wand is ideal for **carpet cleaning, upholstery cleaning and vehicle valeting** across **offices, hotels, schools, healthcare facilities, hospitality venues, vehicle valeting operations, facilities management and commercial cleaning environments**. Its combination of **spray extraction, powerful wet pick-up, professional accessories and compact portability** makes it a versatile solution for maintaining carpets, upholstery and other suitable textile surfaces.
