Numatic George Carpet Cleaner with Hose & Stainless Steel Wand

Variant code: 16-GVE370-2

Numatic George GVE370 is a **versatile 3-in-1 wet and dry vacuum cleaner** designed to vacuum, wash and extract from a wide range of surfaces. Combining Numatic's powerful **TwinFlo bypass vacuum motor** with the advanced **PowerFlo pump system**, George delivers professional cleaning performance for carpets, hard floors, upholstery and wet spill recovery, making it an ideal all-in-one solution for commercial and domestic environments.

Designed for maximum flexibility, George easily converts between dry vacuuming, wet vacuuming and carpet extraction. Switching from dry to wet operation is quick and simple by replacing the dry filter with the safety float valve system. The included **hose and stainless steel wand** provide durability and excellent cleaning reach, ensuring effective results across a variety of cleaning applications.

The powerful **1200W motor** delivers strong suction performance, while the integrated extraction system deep cleans carpets and upholstery by injecting cleaning solution and recovering dirt and moisture in a single operation. Suitable for carpets, hard floors, laminate and tiled surfaces, George is engineered for extended use and demanding cleaning tasks.

With large capacity tanks, easy-to-change **HepaFlo filter bags** and a compact, durable design, Numatic George GVE370 offers a practical and reliable cleaning solution for offices, commercial premises, workshops, hospitality venues and residential properties.

Product Features
