

Numatic Hose Tool End - 38mm

Variant code: 16-HE71

Numatic 32mm Hose Machine End Cuff is a replacement machine-end hose connector designed for compatible 32mm Numatic vacuum cleaner hoses. Featuring a standard screw-on design, this durable hose cuff provides a secure connection between the vacuum hose and the machine, ensuring reliable airflow and consistent cleaning performance.

Manufactured from tough, impact-resistant plastic, the hose cuff is built to withstand the demands of everyday commercial and domestic cleaning. Its precision moulded design allows for quick and straightforward installation by simply screwing onto compatible vacuum hoses, making it an ideal replacement for worn, cracked or damaged machine-end connectors.

The secure fit helps maintain maximum suction efficiency by providing an airtight connection, reducing air leaks and ensuring optimum vacuum performance. Suitable for a wide range of compatible Numatic vacuum cleaners, this replacement hose cuff is an essential maintenance component for extending the life of your vacuum hose.

Product Features

- **Standard 32mm screw-on machine-end hose cuff**
- Designed for compatible Numatic vacuum cleaners
- Durable impact-resistant plastic construction
- Secure screw-on hose fitting
- Provides an airtight machine connection
- Quick and easy to install
- Ideal replacement for worn or damaged hose ends
- Suitable for commercial and domestic vacuum cleaners

Product Benefits

- **Restores a secure connection between hose and vacuum**
- **Helps maintain maximum suction performance**

- **Quick and simple hose repair solution**
- Reduces air leaks for improved cleaning efficiency
- Durable construction for long service life
- Cost-effective alternative to replacing the complete hose

Technical Characteristics

- Product Type: **Machine End Hose Cuff**
- Diameter: **32mm**
- Fitting Type: Screw-On
- Material: Impact-Resistant Plastic
- Colour: Black
- Compatibility: Compatible 32mm Numatic Vacuum Hoses
- Application: Vacuum Hose Machine-End Replacement

Applications

Numatic 32mm Hose Machine End Cuff is ideal for **commercial cleaning contractors, facilities management teams, schools, offices, healthcare facilities, hotels and domestic users** maintaining compatible **32mm Numatic vacuum cleaners**. It provides a reliable replacement connector for repairing damaged hose ends, helping restore suction performance and extend the service life of existing vacuum hoses.
