Numatic HZ350-2 - Dry Pick-Up Hazadous Vacuum Cleaner - 240V

Variant code: 16-HZ350/240V

Numatic HZ350-2 Hazardous Dust Vacuum Cleaner is a professional dry pick-up vacuum specifically designed for the safe collection and containment of hazardous dusts in industrial, commercial and specialist cleaning environments. Combining advanced filtration technology, robust construction and powerful cleaning performance, the HZ350-2 provides a dependable solution where operator safety and dust control are essential.

Engineered to meet the demanding requirements of hazardous dust applications, the HZ350-2 features a high-efficiency multi-stage filtration system designed to capture fine dust particles before they can re-enter the workplace environment. Its powerful suction performance ensures effective collection of harmful dust generated during construction, manufacturing, maintenance and industrial cleaning operations. The compact and highly manoeuvrable design allows easy transportation and operation across a wide range of workspaces.

Built to Numatic's renowned professional standards, the HZ350-2 offers exceptional durability and long-term reliability. The machine incorporates safe dust containment systems and easy-to-maintain filtration components, helping minimise operator exposure during use and disposal. Supplied with a professional accessory kit, it provides versatile cleaning performance for environments where hazardous dust management is critical.

Product Features

- **Professional hazardous dust vacuum cleaner**
- Designed for dry pick-up applications
- Advanced multi-stage high-efficiency filtration system
- Powerful commercial-grade suction performance
- Safe dust containment and disposal

system
- Compact and manoeuvrable design
- Heavy-duty professional construction
- **Supplied with professional cleaning accessory kit**

Product Benefits

- Safely collects and contains hazardous dust particles
- Helps protect operators and workplace environments
- Delivers reliable cleaning performance in demanding conditions
- Compact design improves portability and storage
- Robust construction ensures long service life
- Easy maintenance reduces downtime and operating costs
- Suitable for specialist industrial and commercial cleaning applications

Technical Characteristics

- **Professional dry hazardous dust vacuum system**
- Advanced multi-stage filtration technology
- High-efficiency dust containment performance
- Commercial-duty motor and suction system
- Compact tub vacuum design
- Professional accessory compatibility
- Heavy-duty industrial construction
- **Designed for hazardous dust collection applications**

Applications

Numatic HZ350-2 Hazardous Dust Vacuum Cleaner is ideal for construction sites, engineering workshops, manufacturing facilities, maintenance contractors, industrial cleaning teams, pharmaceutical environments, laboratories, facilities management companies and specialist cleaning professionals requiring safe and effective hazardous dust collection.
