Numatic HZ750-2 - Dry Pick-Up Hazardous Vacuum Cleaner - 240V

Variant code: 16-HZ750/240V

Numatic HZ750-2 Hazardous Dust Vacuum Cleaner is a professional high-capacity dry pick-up vacuum engineered for the safe collection and containment of hazardous dusts in industrial, construction, pharmaceutical and specialist cleaning environments. Combining powerful performance, advanced filtration and robust commercial construction, the HZ750-2 provides a dependable solution for applications where dust control and operator safety are paramount.

Designed to meet the demanding requirements of hazardous dust removal, the HZ750-2 features a sophisticated multi-stage filtration system that captures and contains fine airborne particles before they can be released back into the working environment. Its powerful motor delivers consistent suction performance for the safe collection of hazardous dust generated during maintenance, manufacturing, construction and specialist cleaning operations. The large-capacity design enables longer cleaning periods with fewer interruptions, helping to maximise productivity in demanding workplaces.

Built to Numatic's professional specification, the HZ750-2 incorporates durable construction, high-efficiency dust containment and easy-access maintenance features. The machine is designed to provide safe operation and hygienic disposal procedures, helping reduce operator exposure to potentially harmful dusts. Complete with a professional accessory kit, the HZ750-2 is suitable for a wide range of industrial and specialist cleaning applications where reliable hazardous dust management is essential.

Product Features

- **Professional hazardous dust vacuum cleaner**
- Designed for dry pick-up hazardous dust collection
- Advanced multi-stage high-efficiency filtration system

Tel: 01626 355177

- Large-capacity collection drum for extended cleaning
- Powerful industrial suction performance
- Heavy-duty commercial-grade construction
- Safe dust containment and disposal system
- **Supplied with professional cleaning accessory kit**

Product Benefits

- Provides safe and effective hazardous dust collection
- Helps minimise airborne dust contamination
- Large capacity reduces downtime during operation
- Powerful suction ensures reliable cleaning performance
- Durable construction withstands demanding industrial environments
- Supports workplace health and safety requirements
- Suitable for continuous professional use

Technical Characteristics

- **Professional dry hazardous dust vacuum system**
- Multi-stage high-efficiency filtration technology
- Large-capacity collection container
- Commercial-duty motor and suction system
- Industrial-grade chassis construction
- Professional accessory compatibility
- Safe dust containment design
- **Designed for hazardous dust management applications**

Applications

Numatic HZ750-2 Hazardous Dust Vacuum Cleaner is ideal for construction sites, manufacturing plants, pharmaceutical facilities, laboratories, engineering workshops, industrial maintenance teams, facilities management companies and specialist cleaning contractors requiring safe and reliable hazardous dust collection and containment.

Property	Value
