Numatic NBV190 - 36V Battery Operated 8L Vacuum Cleaner - with 2 Batteries & Charger

Variant code: 16-NBV190/2

Numatic NBV190 - 36V Battery Operated 8L Vacuum Cleaner is a powerful professional cordless vacuum cleaner engineered to deliver exceptional cleaning performance with complete cable-free convenience. Featuring advanced NX300 36V lithium battery technology and a newly developed 350W digital brushless motor, the NBV190NX provides enhanced suction, increased airflow and improved energy efficiency for demanding commercial cleaning applications.

Designed for safe and productive day cleaning, the NBV190NX delivers up to 80 minutes of cordless runtime while achieving a 40% increase in airflow and suction performance. Its cordless operation eliminates the risks associated with trailing cables, helping reduce slips, trips and falls in busy public areas such as retail stores, public transport environments, offices and schools. The compact and highly manoeuvrable design allows operators to clean efficiently in confined spaces and high-footfall areas without disrupting occupants or customers.

Part of Numatic's interchangeable NX300 battery platform, the NBV190NX supports flexible professional cleaning operations and efficient fleet management. With fast one-hour charging capability and reliable commercial-grade construction, this cordless vacuum cleaner delivers powerful professional cleaning performance while maximising operator safety, convenience and productivity.

Product Features

- **Professional cordless battery vacuum cleaner**
- Powered by NX300 36V lithium battery technology
- 350W high-performance digital brushless motor
- Up to 80 minutes cordless runtime
- 40% increase in airflow and suction performance
- Compatible with interchangeable NX300

battery network
- Fast 1-hour charging capability
- **8L professional dust collection capacity**

Product Benefits

- Provides powerful cordless professional cleaning performance
- Eliminates cable-related trip hazards in public areas
- Ideal for safe daytime cleaning in high-footfall environments
- Extended runtime improves cleaning productivity
- Compact design improves manoeuvrability and storage
- Energy-efficient motor technology enhances performance
- Interchangeable battery system supports flexible operation

Technical Characteristics

- **NX300 36V lithium battery platform**
- 350W digital brushless motor technology
- Up to 80 minute cordless runtime
- 1 hour fast charging capability
- 8 litre dust collection capacity
- 40% improved airflow and suction performance
- Professional cordless commercial cleaning operation
- **Suitable for day cleaning and public area use**

Applications

Numatic NBV190 - 36V Battery Operated 8L Vacuum Cleaner is ideal for retail stores, offices, schools, healthcare facilities, public transport environments, hospitality venues, janitorial services and contract cleaning companies requiring safe, powerful and efficient cordless professional cleaning performance.

Property	Value
Length (mm)	340
