Numatic NBV240 - 36V Battery Operated 9L Vacuum Cleaner - with 2 Batteries & Charger

Variant code: 16-NBV240/2

Numatic NBV240 - 36V Battery Operated 9L Vacuum Cleaner is a high-performance professional cordless vacuum cleaner designed to deliver powerful cleaning performance with complete cable-free flexibility. Equipped with advanced NX300 36V lithium battery technology and a high-efficiency 350W digital brushless motor, the NBV240NX provides enhanced airflow, increased suction and extended runtime for demanding commercial cleaning environments.

Engineered for modern day cleaning and safe operation in busy public areas, the NBV240NX delivers up to 80 minutes of cordless cleaning freedom while providing a 40% increase in airflow and suction performance. Its compact and versatile design allows operators to clean efficiently across offices, schools, healthcare facilities, hospitality venues and public buildings without the hazards associated with trailing power cables. The cordless system helps minimise slip, trip and fall risks while maximising productivity and cleaning convenience.

Part of Numatic's interchangeable NX300 battery network, the NBV240NX supports flexible fleet management and rapid battery charging through the included NX Quick Charge Station, which recharges the battery to 80% in just one hour. Featuring simple instant on/off operation, LCD battery charge indicator and a large 9-litre capacity, the NBV240NX is built to deliver reliable professional cleaning performance for commercial cleaning teams and facilities management operations.

Product Features

- **Professional cordless battery vacuum cleaner**
- Powered by NX300 36V lithium battery technology
- 350W high-performance digital brushless motor
- Up to 80 minutes cordless runtime
- 40% increased airflow and suction

performance
- LCD battery charge level indicator
- Includes 1 NX300 battery and quick charger
- **9L professional dust collection capacity**

Product Benefits

- Provides powerful cordless professional cleaning performance
- Eliminates cable-related trip hazards in public environments
- Ideal for safe daytime commercial cleaning operations
- Extended runtime supports improved productivity
- Fast charging minimises operational downtime
- Compact design improves manoeuvrability and storage
- Interchangeable battery system improves operational flexibility

Technical Characteristics

- **NX300 36V lithium battery platform**
- 350W digital brushless motor technology
- Up to 80 minute cordless runtime
- 1 hour fast charging to 80% capacity
- 9 litre dust collection capacity
- 40% increased airflow and suction performance
- Instant on/off power-saving operation
- **Supplied with 1 battery and charger**

Applications

Numatic NBV240 - 36V Battery Operated 9L Vacuum Cleaner is ideal for offices, schools, healthcare facilities, hospitality venues, retail environments, public buildings, janitorial services and contract cleaning companies requiring powerful cordless professional cleaning performance with improved safety and operational flexibility.

Property	Value
