

## Numatic NC3R Cleaning Carousel

**Variant code: 14-758006**

Where onboard mop systems are not required, the NC3R is the classic helper for busy people in busy, high profile environments with everything to do the job easily in hand.

A 70-litre lidded waste bin can be used with or without liner bags, plus two colour-coded detachable cleaning caddies – one large and one small – ensures that all your cleaning needs are onboard and available at all times.

A real time-saver and very convenient to use.
