

Numatic NC4R Colour-coded Carousel

Variant code: 14-758004

The industry colour-coded cleaning mobile that really does allow full control of the cleaning programme in all applications, promoting hygiene and preventing contamination.

Hotels, for example – bedrooms one colour, bathrooms another colour, WCs yet another... a place for everything and everything in its place.

Two large and two small twin compartment caddies all together but all easily detachable as required. No system could be simpler or more versatile than the Carousel.

The Carousel is, without a doubt, not only an outstanding mobile cleaning module but also a very clever design providing several cleaning facilities in one exceptionally compact and easy to handle, user-friendly, package.

In principle the Carousel range is designed to make compact size its first consideration but, whilst being small, it is ideal for professional use.

Engineered from the highest quality recycled plastic, using environmentally sustainable ReFlo Technology, the Carousel Range benefits from unique heavy-duty Structofoam construction, using co-polymer grade material, making it tough, chemical-resistant, easy to clean and built to last.

- Promotes Hygiene & Prevents Contamination – Industry colour-coding for effective infection control.
- Increases Productivity – Compact design providing a number of cleaning facilities.
- Ease of Transit – Carousel design with comfort grip handle and castors for easy movement.
- Compact & Convenient – Easy to use, easy to move, easy to change and easy to store.
- User Friendly Features – Two large and two small twin compartment detachable caddies.
- Sustainably Engineered – Made from high-quality recycled plastic using ReFlo Technology.
