Numatic PacLoc Drive Board - 400mm

Variant code: 16-606401

Numatic PadLoc Drive Board - 400mm is a professional floor pad holder designed for use with compatible Numatic rotary machines and scrubber dryers. Engineered to securely hold floor pads in place during operation, this durable drive board ensures efficient floor cleaning, polishing and maintenance across a wide range of commercial and industrial environments.

Featuring Numatic's proven **PadLoc fixing system**, the drive board provides a secure connection between the machine and cleaning pad, helping to maximise pad contact and cleaning performance. The **400mm diameter** offers excellent floor coverage while maintaining consistent pressure across the cleaning surface, making it ideal for scrubbing, polishing, buffing and floor maintenance tasks. Its robust construction is designed to withstand the rigours of daily professional use while delivering dependable performance.

Easy to fit and remove, the PadLoc Drive Board allows operators to quickly change floor pads to suit different cleaning applications. Whether performing routine floor maintenance or specialist polishing tasks, this genuine Numatic accessory helps maximise machine versatility and cleaning productivity.

Product Features

- **Professional 400mm pad drive board**
- Numatic **PadLoc fixing system**
- Securely holds floor pads during operation
- Suitable for scrubbing, polishing and buffing applications
- Durable commercial-grade construction
- Quick and easy pad installation and removal
