Numatic 32mm ProFlo Combination Floor Tool 290mm

Variant code: 16-601729

Numatic 32mm ProFlo Combination Floor Tool - 290mm is a genuine Numatic professional floor nozzle designed to provide exceptional cleaning performance across both hard floors and carpets. Featuring a durable stainless steel base, retractable bristle system and rear roller wheel, this versatile floor tool delivers smooth operation and outstanding dirt pick-up in commercial and domestic cleaning environments.

Designed with a **290mm cleaning width**, the ProFlo Combination Floor Tool allows operators to transition effortlessly between carpets and hard floors using the convenient foot-operated pedal. The retractable bristle system optimises cleaning performance on different surfaces, while the stainless steel base provides enhanced durability for demanding daily use. A rear roller wheel ensures smooth manoeuvrability and reduced friction during operation, while the integrated wand dock elbow and clip provide convenient storage and handling.

Compatible with any vacuum cleaner using a **32mm accessory system**, this genuine Numatic floor tool combines durability, flexibility and professional cleaning performance. Ideal for facilities with mixed floor types, it offers a reliable solution for maintaining high cleaning standards with a single versatile accessory.
