Numatic Quick Battery Charger

Variant code: 16-915242

Numatic Quick Charger is a **genuine battery charging unit** designed specifically for the **Numatic Quick Battery Powered Stick Vacuum Cleaner**. Engineered to provide safe, efficient and reliable charging of Numatic Quick lithium-ion batteries, this charger helps ensure your cordless vacuum remains powered and ready for use whenever required.

Designed to work seamlessly with the Numatic Quick battery system, the charger delivers the correct charging cycle to optimise battery performance and support long-term battery health. Its user-friendly design makes charging simple and convenient, whether in commercial cleaning environments or domestic settings.

The compact and robust construction allows the charger to be easily stored between uses while providing dependable day-to-day operation. Ideal as a replacement charger or additional charging unit, it enables users to keep spare batteries charged and ready, helping to minimise downtime and maximise cleaning productivity.

Manufactured to Numatic's high standards of quality and reliability, this genuine accessory ensures full compatibility with the Quick range and helps maintain the performance expected from professional cordless cleaning equipment. Whether supporting routine cleaning schedules or intensive daily use, the Numatic Quick Charger is an essential accessory for keeping your vacuum system operating efficiently.

Product Features

Product Benefits

- **Keeps Numatic Quick batteries fully charged and ready for use**
- **Helps maximise battery performance and lifespan**
- **Reduces downtime between cleaning tasks**
- Provides reliable and consistent charging performance
- Ideal for maintaining continuous cleaning operations
- Compact design allows convenient storage
- Genuine compatibility ensures safe operation
- Supports efficient cordless cleaning workflows

Technical Characteristics

- Product Type: Battery Charger
- Compatibility: Numatic Quick Battery System
- Battery Type Supported: Lithium-Ion
- Application: Battery Charging and Maintenance
- Genuine Numatic Accessory
- Compact Portable Design
- Commercial and Domestic Use
- Safe Charging Technology

Applications

The Numatic Quick Charger is ideal for **offices, schools, healthcare facilities, hospitality venues, retail stores, care homes and domestic environments** using the Numatic Quick Battery Powered Stick Vacuum Cleaner. Suitable for routine battery charging and maintenance, it helps ensure batteries remain ready for **daytime cleaning, spot cleaning, floor maintenance and general vacuuming tasks**, supporting reliable cordless cleaning performance throughout the working day.
