Numatic RSU150NX Sanitise Pro Backpack Sprayer - Machine Only - Battery/Charger not Included

Variant code: 16-914541

Numatic RSU150NX Sanitise Pro Backpack Sprayer is a **professional cordless misting disinfection system** designed to deliver fast, effective and consistent sanitising performance across large areas. Ideal for **schools, workplaces, healthcare environments, hospitality venues and public facilities**, the RSU150NX provides an efficient solution for disinfecting high-contact surfaces and shared spaces.

Independently tested to achieve a **99.999% pathogen destruction rate**, the Sanitise Pro utilises a high-pressure misting system that distributes disinfectant evenly across surfaces for maximum coverage and effectiveness. The fine mist dries quickly, helping minimise downtime and allowing treated areas to return to service faster.

Designed for extended professional use, the RSU150NX features a fully adjustable **5-point ergonomic harness** with cushioned shoulder and waist straps to provide exceptional comfort during prolonged operation. A breathable mesh back-support system promotes airflow, helping users stay cool and comfortable throughout the working day.

Built to Numatic's exacting commercial standards, the RSU150NX delivers reliable, repeatable sanitising performance across a wide range of industries. This machine-only version is supplied without battery and charger, making it ideal for users already operating compatible Numatic NX Power Network battery systems.

Product Features

- Professional backpack misting disinfection system
- Independently tested 99.999% pathogen destruction rate
- High-pressure misting technology
- Fast, convenient and effective sanitising performance
- Fully adjustable ergonomic 5-point harness
