Numatic 38mm Antistatic - Stainless Steel Tube - Bent End

Variant code: 16-602919

Numatic 38mm Antistatic Stainless Steel Bent End Tube is a **genuine vacuum cleaner wand attachment** designed for use with compatible **Numatic 38mm vacuum systems**. Manufactured from durable stainless steel and featuring an ergonomic bent-end design, this professional-grade tube provides reliable performance, improved operator comfort and enhanced manoeuvrability during commercial cleaning applications.

The antistatic construction helps minimise the build-up of static electricity during operation, making it particularly suitable for environments where fine dust and debris are regularly collected. Its stainless steel design provides excellent durability and resistance to wear, ensuring long service life in demanding industrial, commercial and professional cleaning environments.

The bent-end configuration improves handling and ergonomics, helping reduce strain during extended cleaning tasks while providing a comfortable working position. Designed for seamless compatibility with Numatic 38mm accessories and floor tools, the tube forms an integral part of the vacuum hose and wand assembly.

As a genuine Numatic accessory, this bent-end tube is engineered to deliver reliable performance, secure fitment and optimum airflow, helping maintain efficient vacuum operation and professional cleaning results.

Product Features

- Genuine Numatic stainless steel vacuum tube
- 38mm diameter connection
- Antistatic construction
- Ergonomic bent-end design
- Durable stainless steel manufacture
- Compatible with Numatic 38mm vacuum systems
- Provides secure accessory connection
- Professional-grade construction

Product Benefits

- **Reduces static build-up during vacuuming**
- **Improves operator comfort and handling**
- **Provides excellent durability and long service life**
- Maintains efficient airflow and suction performance
- Suitable for demanding commercial cleaning tasks
- Compatible with a wide range of 38mm accessories
- Corrosion-resistant stainless steel construction
- Genuine compatibility ensures reliable operation

Technical Characteristics

- Product Type: Vacuum Cleaner Tube
- Diameter: 38mm
- Material: Stainless Steel
- Design: Bent End
- Construction: Antistatic
- Compatibility: Numatic 38mm Vacuum Systems
- Genuine Numatic Accessory
- Commercial and Industrial Grade Performance

Applications

Numatic 38mm Antistatic Stainless Steel Bent End Tube is ideal for **commercial cleaning contractors, industrial facilities, warehouses, workshops, manufacturing sites, schools, healthcare facilities and public buildings** using compatible **Numatic 38mm vacuum cleaners**. Suitable for connecting hoses and floor tools for the collection of **dust, dirt, debris and fine particles**, it provides reliable performance, improved handling and long-lasting durability in professional cleaning environments.
