Numatic Stainless Steel Extension Tube - 38mm

Variant code: 16-602920

Numatic Stainless Steel Extension Tube is a **genuine 38mm vacuum cleaner wand** designed to extend the reach and versatility of compatible **Numatic vacuum cleaners and accessories**. Manufactured from high-quality stainless steel, this durable extension tube provides reliable performance in demanding commercial, industrial and professional cleaning environments.

Designed to connect seamlessly with Numatic's 38mm hose and tool system, the extension tube allows operators to clean floors, ceilings, walls and hard-to-reach areas more comfortably and efficiently. Its robust stainless steel construction offers excellent resistance to wear, corrosion and impact damage, ensuring long service life even under heavy daily use.

The lightweight yet strong design helps maintain manoeuvrability while providing the additional reach required for large cleaning tasks. Whether used as a replacement tube or as part of a customised vacuum setup, it helps maximise cleaning efficiency and operator comfort.

As a genuine Numatic accessory, the 38mm Stainless Steel Extension Tube ensures secure connections, optimum airflow and full compatibility with a wide range of Numatic vacuum cleaners, floor tools and cleaning accessories.

Product Features

- Genuine Numatic extension tube
- 38mm diameter connection
- Durable stainless steel construction
- Compatible with Numatic 38mm vacuum systems
- Extends cleaning reach and accessibility
- Lightweight yet robust design
- Corrosion and wear-resistant finish
- Easy connection to compatible hoses and tools

Product Benefits

- **Provides additional reach for cleaning difficult areas**

Tel: 01626 355177
