Numatic TEM390A - M Class Workshop Trolley Dry Vacuum Cleaner with Power Take Off - 110V

Variant code: 16-TEM390A/110V

Numatic TEM390A - M Class Workshop Trolley Dry Vacuum Cleaner with Power Take Off is a professional high-filtration workshop vacuum cleaner engineered for safe dust extraction and powerful dry cleaning performance in demanding commercial and industrial environments. Designed to meet M Class dust extraction requirements, the TEM390A provides efficient dust control for workshops, construction applications and manufacturing environments where hazardous fine dust management is essential.

Built specifically for professional workshop and tool extraction applications, the TEM390A features integrated power take-off functionality that allows direct connection to compatible power tools for automatic dust extraction during operation. The advanced M Class filtration system helps capture fine airborne dust particles, supporting improved workplace safety and compliance in environments where dust control is critical. Its durable trolley-mounted design ensures excellent mobility and convenient transport around busy workspaces.

Manufactured with Numatic's robust commercial construction standards, the TEM390A delivers dependable dry vacuum performance alongside practical workshop usability. The machine is designed for compatibility with professional extraction accessories and workshop cleaning applications, making it ideal for joinery, woodworking, construction, engineering and industrial maintenance environments requiring reliable M Class dust extraction and dry vacuum cleaning capability.

Product Features

- **Professional M Class workshop dry vacuum cleaner**
- Integrated power take-off for power tool connection
- Advanced M Class high-filtration dust extraction system
- Professional dry vacuum cleaning

performance
- Trolley-mounted mobile workshop design
- Suitable for hazardous fine dust extraction applications
- Durable industrial-grade construction
- **Designed for workshop and trade environments**

Product Benefits

- Supports safe extraction of hazardous fine dust particles
- Integrated power take-off improves workshop efficiency
- Helps maintain cleaner and safer working environments
- Professional filtration improves airborne dust control
- Trolley design improves manoeuvrability and transport
- Durable construction withstands demanding workshop use
- Ideal for direct connection to power tools and machinery

Technical Characteristics

- **M Class professional dust extraction system**
- Integrated power take-off functionality
- Professional dry vacuum operation
- Workshop trolley mobility design
- High-efficiency filtration for hazardous fine dust
- Commercial and industrial construction quality
- Suitable for workshop and trade extraction applications
- **Professional accessory compatibility**

Applications

Numatic TEM390A - M Class Workshop Trolley Dry Vacuum Cleaner with Power Take Off is ideal for woodworking workshops, construction sites, engineering facilities, joinery shops, manufacturing plants, maintenance departments, industrial trades and professional contractors requiring reliable M Class dust extraction and workshop dry vacuum cleaning performance.

Property	Value
Length (mm)	450

Tel: 01626 355177
Email: info@aukhygiene.com

Property	Value
Vacuum Motor Wattage (W)	620
Capacity (L)	18
Cable Length (m)	10
Weight (kg)	14.3
Width (mm)	400
Height (mm)	Handle Up: 1010mm, Handle Down: 690mm
Accessories Included with Machine	Stainless steel extension tubes, tube bend, 2.8m hose, floor and brush tools, crevice tool, upholstery tool and adaptors
Voltage	110V
Noise Level (dB)	LpA = 70 dB (A)
Vacuum Airflow (Litres per Second)	48
Max Suction H20 (mm)	2300
Certification	HEPA13 Filtration Certified
Filter Type	H13 (EN1822)
