Numatic Type 32mm Chrome Tube Kit - Inc 2 Straight Tubes & 1 Bent End

Variant code: 16-HE4445

Numatic 32mm Chrome Tube Kit is a **genuine-style replacement wand set** designed for compatible **32mm Numatic vacuum cleaners**. The kit includes **two chrome straight extension tubes and one chrome bent end tube**, providing a complete replacement solution for worn or damaged vacuum wand assemblies.

Manufactured from durable chrome-plated steel, the tubes are built to withstand the demands of daily commercial and domestic cleaning. The robust construction offers excellent resistance to wear and corrosion while maintaining a lightweight design for comfortable handling during extended cleaning tasks.

The modular three-piece configuration allows operators to assemble the ideal working length for a variety of cleaning applications. The bent end provides improved ergonomics and better control when vacuuming floors, while the straight tubes deliver extended reach for efficient cleaning across large areas.

Suitable for compatible **32mm Numatic vacuum cleaners**, this replacement tube kit restores optimum performance and ensures secure attachment to vacuum hoses and floor tools for reliable day-to-day operation.
