Numatic Twintec TT4045G - 240V Mains Powered Scrubber Dryer - 450mm

Variant code: 16-TT4045G

Numatic Twintec TT4045G is a high-performance **mains powered scrubber dryer** designed for demanding commercial and industrial floor cleaning applications. Combining a generous **40-litre capacity** with a **450mm scrubbing width**, the TT4045G delivers powerful cleaning performance for larger floor areas where reliability, productivity and consistent results are essential.

Powered directly from the mains, the TT4045G benefits from significantly greater cleaning power than many battery-operated alternatives, making it particularly effective on heavily soiled floors and challenging industrial environments. The machine features durable Polyform tanks and a powerful **TwinFlo vacuum motor**, delivering excellent water recovery performance and leaving floors clean, dry and safe for immediate use. With a brush speed of **150rpm**, the scrubber effectively removes dirt and contaminants while maintaining high cleaning standards across large floor areas.

Designed with operator comfort in mind, the machine incorporates simple controls, a fully adjustable handle and Numatic's convenient FlexiFill filling system. The robust **Structofoam chassis construction** provides exceptional durability, making the machine suitable for years of demanding commercial and industrial use. Supplied complete with brush, the TT4045G offers a dependable solution for organisations requiring powerful and uninterrupted floor cleaning performance.

Product Features

- **450mm scrubbing width** for efficient large-area cleaning
- **40-litre tank capacity** supports extended cleaning sessions
- Mains powered operation provides continuous high-performance cleaning
- **TwinFlo vacuum motor** delivers powerful water recovery
- Heavy-duty **Structofoam chassis** construction
- Fully adjustable handle and FlexiFill filling

system
- Supplied complete with brush

Product Benefits

- Provides exceptional cleaning power for demanding environments
- Delivers consistent performance without battery charging downtime
- Improves productivity when cleaning larger floor areas
- Leaves floors clean, dry and safe for immediate use
- Reduces operator fatigue through ergonomic controls and handling
- Offers long-term durability for intensive commercial use
- Supports high standards of cleanliness across industrial facilities

Technical Characteristics

- Professional **240V mains powered scrubber dryer**
- **450mm cleaning width**
- **40 litre solution and recovery tank capacity**
- **150rpm brush speed**
- Heavy-duty Polyform tanks and TwinFlo vacuum system
- Compatible with cable extension systems without loss of performance
- Supplied complete with brush

Applications

Numatic Twintec TT4045G is ideal for warehouses, manufacturing facilities, workshops, logistics centres, retail environments, educational buildings and other large commercial premises where powerful floor cleaning performance is required. Its mains-powered operation makes it particularly effective for heavily soiled and industrial floor surfaces, while the large tank capacity and wide cleaning path help maximise productivity across extensive cleaning areas.
