Numatic Twintec TT6650S - Mains Powered Scrubber Dryer - 650mm

Variant code: 16-TT6650S

Numatic Twintec TT6650S is a heavy-duty **mains powered scrubber dryer** designed to deliver cost-effective floor cleaning performance across large commercial and industrial environments. Combining a substantial **60-litre capacity** with a wide **650mm scrubbing width**, the TT6650S is a genuine workhorse built to maximise productivity while maintaining exceptional cleaning standards.

Powered directly from the mains, the TT6650S benefits from continuous high-performance operation, delivering significantly more power than many battery-powered alternatives. Its large-capacity Polyform tanks, single brush scrubbing head and oversized floating aluminium floor tool work together to provide outstanding scrubbing and water recovery performance, leaving floors clean, dry and safe for immediate use. The powerful **TwinFlo vacuum motor** ensures efficient wet pick-up, making the machine particularly effective on heavily soiled and high-traffic floor surfaces.

Designed for long-term industrial use, the TT6650S features a durable **Structofoam chassis**, simple operator controls and a fully adjustable handle for enhanced user comfort. The convenient FlexiFill system simplifies tank filling, while the machine's large cleaning path and capacity help reduce downtime and increase cleaning efficiency. Supplied complete with brush, the TT6650S is an ideal solution for organisations requiring dependable, high-output floor maintenance equipment.

Product Features

- **650mm scrubbing width** for maximum cleaning productivity
- **60-litre capacity** supports extended cleaning sessions
- Mains powered operation for continuous high-performance cleaning
- **TwinFlo vacuum motor** delivers powerful water recovery
- Heavy-duty Polyform tanks and floating

aluminium floor tool
- Durable **Structofoam chassis** for industrial applications
- Fully adjustable handle and convenient FlexiFill system

Product Benefits

- Provides exceptional cleaning power for large floor areas
- Eliminates battery charging downtime and productivity loss
- Leaves floors clean, dry and safe for immediate use
- Improves operational efficiency through large-capacity tanks
- Reduces cleaning times across extensive facilities
- Enhances operator comfort through ergonomic controls
- Delivers long-term durability in demanding industrial environments

Technical Characteristics

- Professional **mains powered scrubber dryer**
- **650mm cleaning width**
- **60 litre solution and recovery tank capacity**
- **150rpm brush speed**
- Single brush scrubbing system with floating aluminium floor tool
- Heavy-duty Polyform tanks and TwinFlo vacuum motor
- Supplied complete with brush

Applications

Numatic Twintec TT6650S is ideal for warehouses, manufacturing facilities, distribution centres, logistics hubs, retail warehouses, educational campuses and large commercial buildings where efficient floor maintenance is essential. Its wide cleaning path, large tank capacity and powerful mains-powered performance make it particularly suitable for rough, heavily soiled and high-traffic floor surfaces that require consistent professional cleaning results with minimal downtime.
