Numatic Fit Taper Hose 38mm - 32mm x 2.5m

Variant code: 16-HSE45

Numatic Fit Taper Vacuum Hose is a **professional replacement vacuum hose** designed with a **38mm machine-end connection tapering to a 32mm tool-end connection**, providing compatibility between larger machine inlets and standard 32mm vacuum accessories. Measuring **2.5 metres** in length, this flexible hose delivers reliable airflow and excellent manoeuvrability for a wide range of commercial cleaning applications.

Manufactured from durable, crush-resistant materials, the hose is designed to withstand the demands of everyday professional use while maintaining optimum suction performance. The tapered design allows users to connect compatible 32mm tubes, floor tools and accessories to machines fitted with a 38mm hose connection, offering greater versatility across cleaning tasks.

Its lightweight and flexible construction makes it easy to manoeuvre around furniture, equipment and confined spaces, while the generous 2.5m length provides an extended cleaning reach without compromising suction efficiency.

Ideal for commercial and industrial environments, this replacement hose is designed to restore reliable performance and maximise compatibility with a wide range of Numatic cleaning accessories.

Product Features

- **Professional taper vacuum hose**
- **38mm machine end to 32mm tool end**
- **2.5m hose length**
- Flexible and lightweight construction
- Crush-resistant design
- Maintains strong airflow and suction
- Compatible with 32mm vacuum accessories
- Durable for commercial use

Product Benefits

- **Provides excellent flexibility and cleaning reach**
- **Allows 32mm tools to be used with**
