Numatic Type Pattern Paper Vacuum Bags to Suit NVM2BH - Pack of 10

Variant code: 16-SDB140

Numatic Type Pattern Paper Vacuum Bags are **high-quality replacement dust bags** designed to fit **Numatic vacuum cleaners using NVM2BH bag types**. Supplied in a convenient **pack of 5 & 10**, these paper dust bags provide an economical solution for maintaining efficient dust collection and reliable vacuum performance in commercial and domestic environments.

Manufactured from durable multi-layer paper, the bags effectively capture everyday dust, dirt and debris while maintaining consistent airflow to help preserve suction performance. Their robust construction helps reduce the risk of splitting during normal use, ensuring hygienic dust containment and easy disposal once full.

Designed as direct replacements for NVM2BH paper bags, they fit securely into compatible Numatic vacuum cleaners for quick and hassle-free installation. Regular bag replacement helps maintain cleaning efficiency, protects the vacuum motor from excessive dust ingress and supports longer machine life.

Ideal for routine maintenance, these replacement bags offer dependable performance and excellent value for professional cleaners and facilities maintenance teams.
