Numatic WV370 - Wet & Dry Tub Vacuum Cleaner - 110V

Variant code: 16-WV370-2/110V

Numatic WV370 Wet & Dry Tub Vacuum Cleaner is a professional multi-purpose vacuum cleaner engineered to deliver uncompromised wet and dry cleaning performance for commercial and industrial environments. Designed to operate equally efficiently in both cleaning modes, the WV370 combines powerful suction, advanced filtration and durable construction to provide dependable professional cleaning results across a wide range of applications.

Built specifically to avoid the performance compromises commonly found in standard combination vacuums, the WV370 performs as effectively as a dedicated dry vacuum cleaner while also delivering professional wet recovery capability. In dry mode, large filtration systems and optional giant HepaFlo disposable dust bags provide high-efficiency dust collection and hygienic operation. When switching to wet cleaning, the dry filter can be quickly replaced with the wet float valve system and matching floor nozzle, allowing efficient liquid recovery and leaving floors clean and dry.

Powered by Numatic's professional TwinFlo motor performance system, the WV370 delivers exceptional airflow and suction for demanding cleaning operations. Its robust tub construction and versatile accessory compatibility make it ideal for workshops, warehouses, factories, contract cleaning companies and maintenance teams requiring reliable wet and dry vacuum performance from one professional machine.

Product Features

- **Professional wet & dry tub vacuum cleaner**
- Dedicated wet and dry cleaning performance without compromise
- Numatic TwinFlo high-performance motor system
- Large dry filtration system with HepaFlo bag compatibility
- Quick-change wet float valve conversion system
- Professional wet floor nozzle for dry floor results

- Durable commercial-grade tub construction
- **Versatile multi-purpose professional cleaning machine**

Product Benefits

- Provides powerful wet and dry cleaning performance
- Operates as efficiently as a dedicated dry vacuum cleaner
- Quick conversion between wet and dry cleaning tasks
- High-efficiency filtration improves dust containment
- Professional wet pickup leaves surfaces clean and dry
- Durable construction withstands demanding commercial use
- Versatile cleaning capability improves operational efficiency

Technical Characteristics

- **Numatic TwinFlo motor technology**
- Professional wet and dry vacuum cleaning operation
- Large dry filter and HepaFlo dust bag compatibility
- Wet float valve protection system
- Quick-change wet and dry conversion setup
- Commercial-grade tub vacuum construction
- Professional accessory compatibility
- **Suitable for contractor and industrial cleaning applications**

Applications

Numatic WV370 Wet & Dry Tub Vacuum Cleaner is ideal for workshops, warehouses, factories, commercial premises, maintenance departments, janitorial services, contract cleaning companies and industrial environments requiring reliable professional wet and dry vacuum cleaning performance.

Property	Value
Length (mm)	3555
Vacuum Motor Wattage (W)	1000
