Numatic WV470 - Single Motor Wet & Dry Vacuum Cleaner - 110V

Variant code: 16-WV470/110V

Numatic WV470 Wet & Dry Vacuum Cleaner is a professional high-capacity wet and dry vacuum cleaner designed to deliver powerful and reliable cleaning performance across demanding commercial and industrial environments. Offering twice the capacity of the WV370-380 series while maintaining the same professional cleaning standards, the WV470 provides exceptional versatility for both wet recovery and dry debris collection applications.

Built for professional users requiring efficient multi-purpose cleaning, the WV470 quickly converts between dry and wet operation by simply exchanging the dry filter for the wet safety float valve and changing the floor nozzle. Its powerful single motor system delivers dependable suction performance for workshops, warehouses, factories, commercial premises and contract cleaning operations. The large 27-litre dry capacity and 20-litre wet capacity reduce downtime by allowing extended cleaning sessions with fewer interruptions for emptying.

Designed for convenience and ease of transport, the WV470 features a folding handle for compact storage, ergonomic carry handle and large rear wheels for improved stability and manoeuvrability. Supplied complete with the professional AA12 accessory kit and tube set, this robust wet and dry vacuum cleaner provides versatile cleaning capability for a wide range of professional applications.

Product Features

- **Professional wet & dry vacuum cleaner**
- Single motor commercial cleaning performance
- Large 27L dry and 20L wet capacity
- Quick-change wet and dry conversion system
- Folding handle for compact storage
- Large rear wheels for stability and easy transport
- Supplied with professional AA12 accessory kit and tube set
