Numatic WVB750 - Stainless Steel Battery Powered Vacuum Cleaner - 24V

Variant code: 16-WVB750

Numatic WVB750 Battery Powered Vacuum Cleaner is a professional cordless vacuum designed to provide complete cleaning freedom where access to mains power is restricted, impractical or unsuitable due to safety requirements. Combining powerful cleaning performance with rugged industrial construction, the WVB750 is ideal for facilities management, industrial cleaning, transport environments and large commercial premises where unrestricted mobility is essential.

Built around a durable stainless steel container and fitted with a robust Structofoam power head, the WVB750 delivers dependable cleaning performance whilst offering outstanding resistance to corrosion, impacts and general wear. The cordless design eliminates trailing cables, helping to reduce trip hazards and allowing operators to work efficiently in public spaces, warehouses, production facilities and remote locations where mains power is unavailable.

The machine is powered by twin 56Ah gel batteries and a dedicated charging system, providing up to 2.5 hours of runtime between charges. This extended operating time enables continuous cleaning across large areas without interruption. The stainless steel collection container is resistant to deterioration, maintaining both appearance and performance throughout years of demanding professional use.

Designed to Numatic's professional standards, the WVB750 offers exceptional reliability, manoeuvrability and operational flexibility. Whether used for routine maintenance cleaning, industrial housekeeping or specialist applications, this formidable cordless vacuum package provides powerful cleaning performance whenever and wherever it is needed.

Product Features

- **Professional cordless vacuum cleaner**

Tel: 01626 355177
Email: info@aukhygiene.com

- Heavy-duty stainless steel collection container
- Robust Structofoam power head construction
- Twin gel battery power system
- Up to 2.5 hours runtime between charges
- Dedicated battery charging system included
- Cord-free operation for improved accessibility
- Designed for commercial and industrial cleaning applications

Product Benefits

- Provides unrestricted cleaning without reliance on mains power
- Reduces trip hazards associated with trailing cables
- Allows cleaning in remote or difficult-to-access locations
- Supports longer cleaning sessions with extended battery operation
- Resists corrosion and deterioration for extended service life
- Improves productivity across large facilities and sites
- Delivers dependable professional cleaning performance

Technical Characteristics

- **24V battery-powered vacuum system**
- Twin 56Ah gel battery configuration
- Approximate runtime of up to 2.5 hours per charge
- Structofoam power head construction
- Stainless steel collection container
- Dedicated charger system supplied
- Cordless professional cleaning platform
- Designed for heavy-duty commercial use

Applications

Numatic WVB750 Battery Powered Vacuum Cleaner is ideal for warehouses, factories, transport hubs, healthcare facilities, educational establishments, public buildings, facilities management companies and industrial cleaning contractors. Its cordless design makes it particularly suitable for environments where access to mains power is limited, where safety concerns prohibit the use of trailing cables, or where maximum cleaning mobility is required.
