

## Glass Cleaning Microfibre Cloth Grey – Each

Variant code: 12-665

### Professional Grade Glass Cleaning Microfibre Cloth – Grey

#### A Powerful and Efficient Solution for Streak-Free Glass

Achieve flawless, streak-free windows with our premium Glass Cleaning Microfibre Cloth. Designed for professional cleaners, this high-performance cloth ensures sparkling results on every job, every time.

#### Key Features & Benefits:

- **Advanced Microfibre Technology:** Our cloth is made from a premium blend of ultra-fine microfibres. These microscopic fibres are designed to capture and lift dirt, dust, grime, and fingerprints from glass surfaces, leaving behind a polished, crystal-clear finish.
- **Streak-Free Performance:** Say goodbye to frustrating streaks and smears. The unique weave of this cloth ensures a smooth, even wipe, eliminating the need for excessive buffing and re-wiping. It's the perfect tool for windows, mirrors, glass doors, display cases, and more.
- **Superior Absorbency:** The high-density microfibre construction allows the cloth to absorb a significant amount of liquid, making it ideal for use with glass cleaning solutions or for tackling spills. This exceptional absorbency ensures a quick and efficient clean.
- **Durable & Long-Lasting:** Built to withstand the rigours of professional use, this cloth is highly durable and machine-washable. It retains its cleaning power and structural integrity through hundreds of wash cycles, offering a cost-effective and sustainable alternative to disposable options.
- **Lint-Free & Non-Abrasive:** The tightly woven fabric is completely lint-free, guaranteeing a flawless finish without leaving behind annoying fibres. It is also non-abrasive, making it safe for use on all glass types, including sensitive surfaces.

- **Colour-Coded for Hygiene:** The distinct grey colour allows for easy segregation in a professional cleaning environment, helping to prevent cross-contamination and adhering to best practice hygiene protocols.

**Ideal For:**

- **Contract Cleaning Companies:** Achieve consistent, high-quality results for your clients in commercial spaces, offices, retail stores, and residential properties.
- **Professional Cleaners:** Enhance your toolkit with a reliable, efficient cloth that saves you time and effort on every job.
- **Facility Management:** Maintain pristine glass surfaces in hotels, restaurants, schools, and healthcare facilities.
