Cleanfix Orbimac - Orbital 13" Polishing/Scrubbing Machine with Pad Holder, Tank and Wheels

Variant code: 16-700

Cleanfix Orbimac is a **compact 13-inch orbital polishing and scrubbing machine** designed to deliver exceptional floor cleaning and polishing performance with minimal operator effort. Unlike conventional rotary machines, the Orbimac features an **oscillating head motion** that eliminates the side-to-side pull associated with standard floor machines, making it remarkably easy to control and ideal for users of all experience levels.

Compact, lightweight and highly manoeuvrable, the Orbimac is perfectly suited to maintaining floors in front-of-house and public-facing environments where appearance and ease of use are paramount. The oscillating cleaning action provides effective scrubbing, polishing and maintenance cleaning while reducing user fatigue and improving handling.

Supplied as a complete cleaning solution, the machine includes a **solution tank**, **13" floor pad drive board**, **polishing pad**, **microfibre pad**, and **transport wheels**, allowing operators to begin cleaning immediately. Compatible with standard **13-inch floor pads**, the Orbimac offers flexibility across a wide range of floor maintenance applications.

Designed to deliver professional results on hard floors, the Cleanfix Orbimac combines performance, simplicity and versatility in a compact machine that is ideal for daily maintenance cleaning and floor care programmes.

Product Features

- **13" orbital polishing and scrubbing machine**
- Oscillating head technology for easy control
- No side-to-side machine pull
- Compact and lightweight design
- Includes solution tank
- Includes 13" floor pad holder/drive board
- Includes polishing pad

- Includes microfibre pad
- Fitted with transport wheels
- Compatible with standard 13" floor pads
- Mains powered operation

Product Benefits

- **Extremely easy to use and manoeuvre**
- **Provides effective scrubbing and polishing performance**
- **Oscillating action improves operator control**
- Ideal for front-of-house floor maintenance
- Lightweight design reduces user fatigue
- Complete package ready for immediate use
- Suitable for a variety of hard floor cleaning tasks

Technical Characteristics

- Model: **Cleanfix Orbimac**
- Machine Type: **Orbital Polisher & Scrubber**
- Cleaning Width: **13" (330mm)**
- Power Source: **Mains Powered**
- Head Action: **Oscillating / Orbital Motion**
- Includes:
  - Solution Tank
  - 13" Pad Holder / Drive Board
  - Polishing Pad
  - Microfibre Pad
  - Transport Wheels
- Pad Compatibility: Standard 13" Floor Pads
- Construction: Compact Lightweight Design

Applications

Cleanfix Orbimac is ideal for **hotels, restaurants, retail stores, reception areas, healthcare facilities, schools, offices and other front-of-house environments**. Suitable for **hard floor scrubbing, polishing, spray cleaning, floor maintenance and restorative cleaning**, it delivers professional cleaning results while remaining easy to operate and control in busy commercial settings.
