Oven Gloves - 7"x42" - Each

Variant code: 12-636

Oven Gloves are durable and heat-resistant protective gloves designed to provide safe handling of hot cookware, trays and kitchen equipment in commercial and domestic catering environments. Measuring **7" x 42"**, these long-length oven gloves offer enhanced arm and hand protection when working with ovens, grills, hot pans and heated surfaces.

Manufactured for demanding kitchen and catering applications, these professional oven gloves help protect users from heat exposure while providing a secure and comfortable grip during food preparation and cooking tasks. The extended length design offers additional coverage for forearms, making them ideal for use with deep ovens, large trays and commercial catering equipment where extra protection is essential.

Suitable for restaurants, bakeries, catering facilities, commercial kitchens and domestic cooking environments, these oven gloves provide a practical and reliable heat protection solution for everyday kitchen safety.

Product Features
