Windmill Refill Aeroflow Fast Tap - High Flow Dispensing Tap - 5L/10L Refill Containers Compatible

Variant code: 14-713

Windmill Refill Aeroflow Fast Tap is a high-flow dispensing solution designed to deliver **rapid and controlled decanting** of cleaning liquids from larger containers. Developed for use with Windmill Refill systems, it improves efficiency when handling high-volume products.

This fast dispensing tap is ideal for use with **thicker cleaning products**, such as Warrior and Hero, ensuring smooth and consistent flow without clogging or restriction. It is capable of dispensing **up to 5 litres per minute**, significantly reducing filling time in busy environments.

Designed for compatibility with **5L and 10L Windmill Refill containers**, the tap provides a secure fit and reliable performance. Its simple operation allows users to quickly decant liquids into smaller containers or equipment with minimal effort.

Built for durability and ease of use, the Aeroflow Fast Tap is suitable for professional environments where speed, control and efficiency are essential.

Product Features

- **High flow dispensing tap** for rapid decanting
- Dispenses up to **5 litres per minute**
- Suitable for **thicker cleaning products**
- Compatible with **5L and 10L Windmill Refill containers**
- Simple and efficient operation
- Durable construction for repeated use

Product Benefits

- Speeds up decanting of large volumes
- Improves efficiency in high-use environments
- Handles thicker liquids with ease
- Reduces downtime during refilling tasks
- Ensures controlled and consistent flow
- Ideal for professional cleaning operations
