Aluminium Male Adaptor with Q21 Female Coupling

Variant code: 16-AHA-Q21F

Aluminium Male Adaptor with Q21 Female Coupling is a **durable quick-connect connector** designed to provide secure and efficient connections within water-fed pole, pressure washing and professional cleaning systems. Manufactured from lightweight yet robust aluminium, this adaptor delivers reliable performance while helping to minimise system weight and improve handling during operation.

Featuring a **male adaptor connection with an integrated Q21 female coupling**, the fitting enables fast attachment and removal of compatible hoses, poles and cleaning accessories without the need for tools. This quick-connect functionality helps reduce setup times, improve workflow efficiency and minimise downtime on-site.

The high-quality aluminium construction offers excellent resistance to corrosion and wear, making the adaptor suitable for demanding commercial and outdoor cleaning environments. Precision engineering ensures a secure fit and consistent water flow, supporting efficient cleaning performance across a wide range of applications.

Product Features

- **Aluminium male adaptor with Q21 female coupling**
- Lightweight and durable aluminium construction
- Quick-connect coupling system
- Fast attachment and removal of accessories
- Corrosion-resistant design
- Precision-engineered fitment
- Suitable for professional cleaning systems
- Robust commercial-grade construction

Product Benefits

- **Provides secure and reliable system connections**
- **Reduces equipment setup and changeover times**
- **Lightweight construction improves**

handling
- Corrosion-resistant for long service life
- Maintains consistent water flow performance
- Ideal for replacement, maintenance and system upgrades

Technical Characteristics

- Product Type: **Male Adaptor with Female Coupling**
- Coupling Type: **Q21 Female Quick Coupling**
- Material: **Aluminium**
- Connection Style: Quick connect
- Construction: Corrosion-resistant metal
- Application: Professional cleaning and water-fed pole systems
- Manufacturer: Streamline

Applications

Aluminium Male Adaptor with Q21 Female Coupling is ideal for **window cleaning professionals, facilities maintenance teams, pressure washing contractors and commercial cleaning operators**. Suitable for connecting **water-fed poles, hoses, pumps and compatible cleaning accessories**, it provides a secure and efficient connection solution for professional cleaning systems and high-reach cleaning applications.

Property	Value
Material	Aluminium
Area of Use	Water-Fed Pole Systems, Window Cleaning Equipment, Exterior Cleaning Systems, Hose Connections, Cleaning Accessories.
How to Use	Attach the adaptor to the compatible fitting and connect the Q21 female coupling to a matching Q21 connector. Ensure the coupling is securely locked before use.
Product Type	Adaptor / Coupling
Design	Anti-Snag Adaptor
