

Celox™ Blood Clotting Granules – 15g

Variant code: 21-99806

Celox™ Granules quickly control even the most severe arterial bleeding. Simply apply to the wound, pack it, and apply pressure. Celox™ clots blood fast, works in hypothermic conditions and also clots blood containing heparin or warfarin. It does not generate heat in use and will not burn.

Importantly, Celox™ granules can be used instantly and without hesitation as a fast, safe and simple emergency treatment for serious bleeding.

Features:

- Simple to Use
- Highly Effective
- No specific training required
- Safe to use for entire body including head, neck and chest wounds
