Confidential Paper Shredding Sacks with Secure Seal - 8kg Capacity

Variant code: 18-CWB

Confidential Waste Paper Sacks provide a secure and practical solution for the collection, storage and disposal of confidential paper waste. Measuring **800 x 600mm** and offering a **16kg load capacity**, these heavy-duty sacks are designed to safely contain sensitive documents prior to shredding or secure destruction, making them ideal for offices, financial institutions, healthcare facilities and public sector organisations.

Manufactured from durable, tear-resistant paper, the sacks are engineered to withstand the demands of everyday document disposal while helping maintain the integrity of confidential waste during handling and transportation. Their generous capacity accommodates high volumes of paper waste, and the sturdy construction helps prevent splitting under normal operating conditions. Supplied in a **pack of 25**, they provide an economical solution for organisations with regular confidential waste disposal requirements.

Suitable for use in secure waste collection systems, these confidential waste sacks support compliant document disposal procedures while promoting efficient workplace waste management.

Product Features

- Heavy-duty confidential waste paper sacks
