SC Johnson Deb Stokoderm® Sun Protect SPF50 PURE - Skin Protection Cream - Case of 12 x 100ml

Variant code: 10-SPC100ML

SC Johnson Deb Stokoderm Sun Protect SPF50 PURE is a **high-protection sun protection cream** developed for professional environments where workers are exposed to harmful ultraviolet radiation. Manufactured by SC Johnson Professional, the Stokoderm range is designed to help protect the skin from occupational hazards while supporting skin health in demanding workplace conditions.

The advanced formula provides **SPF50 UVB protection**, helping prolong the skin's natural defence against the sun's UVB rays. It also delivers **UVA protection** in accordance with European recommendations and provides additional **UVC protection** against artificially generated UVC radiation encountered during industrial processes such as arc welding. While offering supplementary protection against workplace UVC exposure, the product does not replace the need for appropriate personal protective equipment.

The **water-resistant formulation** has been tested to retain SPF50 protection after prolonged exposure to water, making it suitable for outdoor work environments where perspiration and changing weather conditions are common. Its **non-greasy finish** encourages regular application without adversely affecting grip or dexterity when using hand-held tools and equipment.

The cream contains **Glycerin**, helping to moisturise the skin and prevent dryness during prolonged outdoor exposure. The **perfume-free and dye-free formulation** is suitable for users sensitive to fragrances and colourants. It is also **silicone-free**, ensuring compatibility with paint and surface coating processes, while independent testing confirms compatibility with rubber manufacturing and vulcanisation processes.

Product Features

- **SPF50 sun protection cream** for occupational use
- Provides **UVB, UVA and additional UVC**

protection
- **Water-resistant formulation** tested for prolonged protection
- **Non-greasy finish** to support regular use
- Contains **Glycerin** to help moisturise the skin
- **Perfume-free, dye-free and silicone-free** formulation

Product Benefits

- Helps protect skin from harmful workplace UV exposure
- Supports outdoor workers in high-sun environments
- Provides additional protection during arc welding operations
- Maintains user comfort without greasy residue
- Helps prevent skin dryness during prolonged exposure
- Compatible with specialist industrial manufacturing processes

Technical Characteristics

- Supplied in **100ml tubes**
- SPF50 protection against UVB rays
- Conforms to European UVA protection recommendations
- Water-resistant formulation for outdoor working conditions
- Silicone-free and suitable for paint and coating environments
- Compatible with rubber production and vulcanisation processes

Applications

SC Johnson Deb Stokoderm Sun Protect SPF50 PURE is suitable for **construction workers, utilities personnel, agricultural workers, grounds maintenance teams, transport operators and other outdoor professionals** exposed to sunlight throughout the working day. It is also suitable for workers exposed to **artificial UVC radiation generated during industrial processes**, including arc welding operations. The combination of broad-spectrum UV protection, water resistance and a non-greasy finish makes it ideal for workplaces where skin protection, comfort and operational performance are equally important.

Property	Value
