Diversey Carefree Stripper - 5L

Variant code: 03-135

The **Diversey Carefree Stripper - Floor Finish Remover** is a high-performance floor maintenance solution developed to efficiently remove layers of floor polish, sealers, and finish build-up from hard flooring surfaces. As part of Diversey's professional cleaning and hygiene portfolio, Carefree Stripper is formulated to deliver reliable and consistent results in demanding commercial environments. Diversey is widely recognised for its science-led approach to cleaning solutions, combining performance, safety, and operational efficiency across a broad range of applications.

This product is designed to break down and lift multiple layers of floor finish quickly, reducing the time and effort required during periodic floor maintenance. Its formulation allows for effective penetration of polish layers, enabling easier removal without excessive scrubbing. Suitable for use across a variety of resilient flooring types, Carefree Stripper supports efficient floor restoration and prepares surfaces for reapplication of new floor finishes.

Product Features

- High-performance floor stripper for removing polish and sealers
- Designed for use in commercial and industrial cleaning environments
- Breaks down multiple layers of floor finish efficiently
- Suitable for a wide range of resilient hard floor surfaces
- Formulated for effective penetration and lift of coatings
- Supports periodic deep cleaning and floor restoration processes
- Compatible with standard floor maintenance equipment

Product Benefits

- Reduces labour time required for floor stripping tasks
- Improves efficiency of periodic floor maintenance programmes
- Helps achieve a clean, residue-free surface ready for refinishing

- Minimises the need for aggressive mechanical scrubbing
- Supports consistent, professional floor appearance
- Enables better adhesion of new floor finishes after stripping

Technical Characteristics

- Designed for dilution according to manufacturer guidelines
- Suitable for use with rotary machines, scrubber dryers, or manual application
- Apply evenly and allow adequate dwell time for optimal performance
- Remove slurry thoroughly after stripping process
- Rinse floor before applying new finish to ensure surface readiness
- Store in a cool, dry area and handle in accordance with safety guidelines

Applications

The Diversey Carefree Stripper is intended for use in commercial and institutional environments such as hospitals, schools, retail spaces, offices, and public buildings where hard floor maintenance is essential. It is particularly suited to periodic deep cleaning programmes where existing floor finishes must be removed prior to reapplication. By effectively stripping built-up coatings, it supports the restoration of floor surfaces and helps maintain a clean, professional appearance in high-traffic areas.

Property	Value
Length (mm)	280
Width (mm)	191
Height (mm)	295
How to Use	Dose the product 1:20 into the water tank/bucket, apply the solution uniformly and allow to act 5 minutes to give sufficient contact time (do not allow the solution to dry).
Chemical Colour	Clear Blue Liquid
