DRYFT Microfibre Pad

Variant code: 16-040-0035

DRYFT Micro-Fibre Cleaning Pad is a high-performance reusable floor cleaning pad designed to deliver exceptional cleaning results on smooth and delicate hard floor surfaces. Manufactured from soft absorbent microfibres with integrated blue scrubbing stripes, this professional cleaning pad provides powerful dirt removal while remaining gentle on sensitive flooring materials.

Engineered for use with the **DRYFT floor cleaning system**, this micro-fibre pad offers excellent cleaning performance across sealed wood, vinyl, polished concrete, epoxy-coated floors, laminate and smooth stone surfaces. The absorbent microfibre construction effectively lifts dirt and grime, while the blue scrubbing stripes provide additional agitation for improved cleaning results without damaging delicate finishes.

Designed for demanding commercial and healthcare environments, the DRYFT cleaning pad is fully washable and reusable, supporting efficient hygiene management and cost-effective floor maintenance. Its durable construction allows regular laundering and disinfection, making it ideal for environments requiring high hygiene standards and repeated daily use.

Product Features

- **Professional DRYFT micro-fibre cleaning pad**
- Soft absorbent microfibre construction
- Integrated blue scrubbing stripes for enhanced cleaning
- Suitable for smooth and delicate hard floor surfaces
- Reusable and machine washable
- Compatible with DRYFT floor cleaning systems
- Designed for regular laundering and disinfection
- Gentle on sensitive flooring materials

Product Benefits

- Provides outstanding cleaning performance on smooth floors
- Removes dirt effectively without damaging surfaces
