Evans Q'sol Superior Washing Up Liquid - 1L

Variant code: 04-120

Evans Q'sol is a high-performance **superior washing up liquid** developed by Evans Vanodine for effective manual dishwashing and general cleaning tasks. Formulated to deliver excellent cleaning results, it quickly cuts through grease and food residue while providing reliable performance across a wide range of cleaning applications.

Designed with **excellent drainage properties**, Q'sol helps crockery and glassware dry quickly to a sparkling, streak-free finish. Its versatile formulation makes it ideal not only for washing dishes but also for **pre-soaking heavily soiled items** and general cleaning of surfaces such as floors, walls and vehicles. Effective in all water conditions, it offers consistent performance in both hard and soft water areas, while its **fresh, clean fragrance** enhances the overall cleaning experience.

Product Features

- **Superior washing up liquid** for manual dishwashing
- **Excellent drainage properties** for sparkling results
- Effective for **pre-soaking heavily soiled dishes**
- **High dilution rate** for economical use
- Suitable for **general cleaning tasks** beyond dishwashing
- Works effectively in **all water conditions**
- **Fresh, clean fragrance** for improved user experience

Product Benefits

- Leaves crockery and glassware clean and streak-free
- Improves efficiency when dealing with heavily soiled items
- Reduces product usage due to concentrated formulation
- Provides a versatile solution for multiple cleaning tasks
- Ensures consistent performance regardless of water hardness
- Enhances cleaning environments with a fresh fragrance

- Supports professional cleaning standards in commercial kitchens and facilities

Technical Characteristics

- Suitable for **manual dishwashing** applications
- Can be used for **pre-soaking** heavily soiled items
- Appropriate for general cleaning of **floors, walls and vehicles**
- Use diluted according to soil level and cleaning requirements
- Effective in both **hard and soft water conditions**
- Store in a cool, dry environment away from direct sunlight
- Follow site safety and handling procedures during use

Applications

Evans Q'sol is suitable for use in commercial kitchens, catering environments, hospitality venues, and general cleaning operations. It is ideal for washing crockery, glassware and utensils, as well as pre-soaking heavily soiled items. Its versatility also makes it suitable for broader cleaning tasks such as floors, walls and vehicle cleaning, providing a practical solution for facilities requiring a reliable and economical multi-purpose cleaning product.
