Evans Q'Det - Unperfumed Washing Up Liquid - 6 x 1L

Variant code: 04-164

Evans Q'Det is a professional **unperfumed washing up liquid** designed for the effective manual cleaning of crockery, glassware and kitchen utensils. Developed by Evans Vanodine, this concentrated formulation delivers reliable cleaning performance while remaining suitable for environments where fragrance-free products are required.

The product produces a **rich, high foam** even under heavily soiled conditions, helping to break down grease and food residues efficiently. Its unscented formulation ensures it will **not taint or affect beer head retention** in drinking glasses, making it particularly suitable for use in bars and hospitality environments. In addition to dishwashing, it is also recommended for **general cleaning tasks and optics**, offering a versatile solution for professional cleaning operations.

Product Features

- **Unperfumed washing up liquid** for sensitive applications
- **Concentrated formula** for efficient manual cleaning
- Produces **rich, high foam** under heavy soiling
- Will not **taint glassware or affect beer head retention**
- Suitable for **crockery, glassware and kitchen utensils**
- Recommended for **general cleaning and optics**
- Developed for professional catering and hospitality use

Product Benefits

- Ensures effective cleaning without added fragrance
- Maintains quality and presentation of drinking glasses
- Supports hygiene standards in bars and food service environments
- Provides consistent performance in heavily soiled conditions
- Offers a versatile cleaning solution for multiple applications

- Reduces product consumption through concentrated formulation
- Suitable for environments where odour neutrality is essential

Technical Characteristics

- Designed for **manual dishwashing** applications
- Produces stable foam to assist grease and soil removal
- Suitable for use on **glassware, crockery and utensils**
- Recommended for use in **optics and beverage service areas**
- Use diluted according to soil level and cleaning requirements
- Store in a cool, dry environment away from direct sunlight
- Follow site safety and handling procedures during use

Applications

Evans Q'Det is suitable for use in commercial kitchens, bars, pubs, restaurants and hospitality environments where maintaining the quality of glassware is essential. It is ideal for manual washing of crockery and utensils, as well as for cleaning drinking glasses without affecting beer presentation. Its unperfumed formulation also makes it suitable for general cleaning tasks and areas where fragrance-free products are required.
