Hurricane Electrostatic Fogging Machine - 3.8L Commercial Fogger

Variant code: 16-104777

Hurricane Electrostatic Fogging Machine is a **professional electrostatic fogger** designed for rapid and effective application of disinfectants, sanitisers and deodorising solutions across commercial environments. Built for demanding cleaning and infection control programmes, it features a **3.8-litre impact-resistant solution tank** and a powerful motor, making it ideal for treating **high-touch points and large indoor spaces** with speed and efficiency.

Equipped with **three precision spray nozzles**, the Hurricane delivers enhanced output capacity and projects fine droplets **up to 4.5 metres**, allowing operators to cover large areas quickly. The adjustable flow rate of **0–120ml per minute** and droplet size range of **10–50 microns** (depending on the selected setting) provide excellent flexibility for a variety of disinfection and sanitisation tasks. The spray produces a plume approximately **60cm wide** and **4.6 metres high**, ensuring efficient surface coverage.

The electrostatic application technology helps attract droplets to surfaces for improved coverage and reduced chemical waste, while the ergonomic design offers comfortable handling during prolonged use. Durable construction and reliable performance make the Hurricane Fogger an excellent choice for professional cleaning contractors and facilities management teams.

Product Features

- **Professional electrostatic fogging machine**
- **3.8-litre impact-resistant solution tank**
- Three precision spray nozzles for increased output
- Spray distance of up to **4.5 metres**
- Adjustable flow rate: **0–120ml per minute**
- Adjustable droplet size: **10–50 microns**
- Approximate spray plume: **60cm wide x 4.6m high**
- Powerful commercial-grade motor
- Suitable for disinfectants, sanitisers and

deodorising solutions

Product Benefits

- **Rapidly covers large commercial areas**
- **Ideal for treating high-touch surfaces**
- **Electrostatic technology improves solution coverage**
- Adjustable settings suit a variety of applications
- Durable impact-resistant tank for demanding environments
- Helps improve cleaning productivity and reduce application time
- Supports effective hygiene and infection control programmes

Technical Characteristics

- Product Type: **Electrostatic Fogging Machine**
- Tank Capacity: **3.8 Litres**
- Tank Material: Impact-Resistant Plastic
- Flow Rate: **0–120ml/min**
- Droplet Size: **10–50 Microns (adjustable)**
- Spray Distance: **Up to 4.5m**
- Spray Coverage: Approx. **60cm Wide x 4.6m High**
- Nozzles: **3 Precision Nozzles**
- Application: Commercial Disinfection & Sanitisation

Applications

Hurricane Electrostatic Fogging Machine is ideal for **commercial cleaning contractors, healthcare facilities, schools, offices, hospitality venues, retail premises, warehouses, public transport, leisure centres and industrial sites**. Designed for the efficient application of **disinfectants, sanitisers and odour control solutions**, it provides rapid coverage of **high-touch surfaces, large indoor areas and difficult-to-reach spaces**, helping maintain high standards of hygiene in professional environments.

Property	Value
Capacity (L)	3.8
Area of Use	Commercial Buildings, Healthcare Facilities, Schools, Offices, Hotels, Public Areas, High-Touch Surfaces, Warehouses.

Tel: 01626 355177
Email: info@aukhygiene.com

Property	Value
How to Use	Fill the 3.8 L tank with a compatible water-based formulation, adjust the flow rate and droplet size, switch on the fogger, and apply the mist evenly over the target area while maintaining the recommended spraying distance. Clean the unit after use.
Flow Rate	Adjustable, 0–120 ml/min
