Kitchen Craft MasterClass Heat and Water Resistant Silicone Oven Gloves - Single Glove

Variant code: 12-637

Kitchen Craft MasterClass Heat & Water Resistant Silicone Oven Glove is a professional-grade protective oven glove designed to provide superior heat resistance, water resistance and safe handling in demanding kitchen environments. Combining a seamless silicone outer with a comfortable cotton sleeve, this durable oven glove delivers enhanced grip, flexibility and protection for commercial and domestic cooking applications.

Manufactured for professional chefs, catering businesses and home cooking enthusiasts, this heat resistant silicone oven glove helps safely handle hot trays, pans, ovenware and cookware while reducing the risk of burns and slips. The seamless silicone construction provides excellent resistance to heat, steam and hot liquids, while the textured non-slip surface improves grip and handling confidence during busy kitchen operations.

The integrated cotton sleeve enhances comfort and provides additional forearm protection when reaching into ovens or handling hot equipment. Suitable for professional catering kitchens, bakeries, restaurants and domestic use, this durable single oven glove offers reliable everyday kitchen safety and performance.
