

Lucart Essential Foam Soap 1L – Case of 6

Variant code: 10-89113000

Lucart Essential Foam Soap 1L – Case of 6

Elevate your facility's hygiene standards with the **Lucart Essential Foam Soap 1L (Case of 6)**.

Specifically engineered for high-traffic environments, this professional-grade foam soap combines cost-efficiency with a luxurious hand-washing experience. Each 1-litre cartridge is designed for use with the **Lucart Identity Soap Dispenser**, offering a seamless, drip-free system that minimises waste and maximises cleanliness.

Whether you are managing a busy office, a catering kitchen, or a public washroom, the Lucart Essential range provides a **dermatologically tested**, neutral-fragrance solution that is gentle on skin and kind to the planet.

Key Features & Benefits

- **Massive Capacity:** Each 1L cartridge delivers up to **2,500 doses**, meaning fewer refills and reduced maintenance time.
- **Eco-Friendly Design:** Formulated with **biodegradable ingredients** and housed in fully recyclable cartridges, supporting your business's sustainability goals.
- **Dermatologically Tested:** The mild, pH-balanced formula is safe for frequent use, preventing skin irritation and dryness.
- **Hygienic Sealed Cartridges:** Each bottle comes with an **integrated pump**, ensuring a fresh, uncontaminated dose of soap every time.
- **Neutral Fragrance:** The subtle, fresh scent is non-intrusive, making it ideal for food preparation areas and professional settings.

Lucart Essential vs. Standard Bulk Fill Liquid Soap

Choosing the right soap system can significantly impact your overhead costs and janitorial efficiency. Here is how the Lucart Essential Foam Soap compares to a standard 5L bulk fill liquid soap.

Feature	Lucart Essential Foam Soap (1L)	Standard Bulk Fill Liquid Soap (5L)
Doses per Litre	Approx. 2,500	Approx. 500–800
Waste Level	Minimal (Controlled foam dispensing)	High (Drips, over-dispensing, and spills)
Hygiene	High (Sealed cartridge with new pump)	Low (Open reservoir prone to bacteria)
Maintenance	Low (Quick-change cartridges)	High (Time-consuming pouring and cleaning)
Sustainability	Eco-Label / Biodegradable	Often contains harsh chemicals

Why Lucart is better: While a 5L bottle of liquid soap may seem cheaper upfront, the Lucart Foam system provides **up to 6 times more washes** per litre. This significantly reduces your "cost-per-wash," saves storage space, and eliminates the messy residue often found under bulk-fill dispensers.

Frequently Asked Questions (FAQ)

Q: Which dispensers are compatible with these refills? A: These 1000ml cartridges are designed specifically for the **Lucart Identity Soap Dispenser** range (available in Manual and Touch-Free models).

Q: Is this soap suitable for food prep areas? A: Yes. The Lucart Essential Foam Soap features a **neutral fragrance**, which is preferred in catering and hospitality environments as it doesn't transfer scents to food.

Q: How does the "integrated pump" help with hygiene? A: Unlike bulk-fill dispensers where the pump is used for years, Lucart cartridges come with a **fresh pump in every bottle**. This eliminates the risk of bacteria buildup and ensures the dispenser never clogs.

Q: Is this product environmentally friendly? A: Absolutely. Lucart is a leader in sustainability; the

soap uses biodegradable natural ingredients, and the plastic cartridges are fully recyclable.
