Numatic 12.5m Mains Cable - Yellow with Easy Change Plug for PPR170

Variant code: 16-911501

Numatic 12.5m Mains Cable is a **genuine replacement power cable** designed specifically for the **Numatic PPR170 Vacuum Cleaner**. Featuring Numatic's innovative **Easy Change Plug system**, this high-visibility replacement cable allows users to quickly replace a damaged or worn power cable without sending the machine away for repair, helping to minimise downtime and maintain cleaning productivity.

Manufactured to Numatic's exacting standards, the cable is fitted with a durable **moulded 3-pin mains plug** and a moulded machine connector designed for direct installation into the Easy Change cable rewind assembly. This simple plug-and-play design enables fast replacement while ensuring safe and reliable operation.

The **high-visibility yellow cable** improves workplace safety by making the cable easier to see during operation, helping reduce trip hazards in busy commercial environments. With a generous **12.5-metre length**, the cable provides excellent cleaning reach and flexibility, reducing the need to frequently change power outlets during use.

Built for professional cleaning applications, this genuine Numatic replacement cable ensures full compatibility with the PPR170 while maintaining the reliability and performance expected from Numatic equipment.
