Makita 40V Brushless Backpack Vacuum Cleaner (Body Only)

Variant code: 16-VC008GZ02

Makita 40V Max XGT Brushless Cordless Backpack Vacuum Cleaner is a powerful professional cleaning solution engineered to deliver exceptional cordless performance, mobility and user comfort. Designed for demanding commercial, industrial and construction environments, this backpack vacuum combines Makita's advanced 40V Max XGT battery platform with a high-efficiency brushless motor to provide corded-level cleaning power without the restrictions of cables.

Built for professionals who require maximum productivity and freedom of movement, the VC008G delivers powerful suction performance for cleaning workshops, offices, hotels, construction sites and large commercial spaces. The lightweight backpack design features a fully adjustable padded harness and ergonomic back support system that distributes weight evenly, helping to reduce operator fatigue during prolonged cleaning sessions. With no trailing power cable, users can safely clean stairs, confined areas and high-traffic environments while eliminating trip hazards.

Advanced HEPA filtration captures 99.97% of particles measuring 0.3 microns or larger, helping to improve workplace air quality and contain fine dust, allergens and debris. The generous dust collection capacity reduces interruptions, while the flexible hose and accessory system provide excellent versatility across multiple cleaning applications. Supplied as a body-only unit, this vacuum is the ideal solution for users already invested in Makita's 40V Max XGT battery platform.

Product Features

- **Professional 40V Max XGT cordless backpack vacuum cleaner**
- High-performance brushless motor technology
- Powerful cordless suction with corded-

level performance
- Advanced HEPA filtration captures 99.97% of particles ≥0.3 microns
- Lightweight ergonomic backpack design
- Adjustable padded harness and back support system
- Flexible hose and accessory compatibility
- **Body only – battery and charger sold separately**

Product Benefits

- Provides powerful professional cleaning performance without cables
- Reduces trip hazards and improves workplace safety
- Lightweight design minimises user fatigue during extended operation
- HEPA filtration improves indoor air quality and dust control
- Brushless motor delivers enhanced efficiency and longer service life
- Ideal for cleaning large areas, staircases and confined spaces
- Compatible with Makita 40V Max XGT battery platform

Technical Characteristics

- **40V Max XGT cordless battery platform**
- High-efficiency brushless motor
- HEPA filtration efficiency of 99.97% at 0.3 microns
- Approximate 2.0L dust collection capacity
- Ergonomic backpack harness system
- Flexible hose and professional accessory compatibility
- Cordless operation for unrestricted mobility
- **Body Only – requires Makita 40V Max XGT battery and charger**

Applications

Makita 40V Max XGT Brushless Cordless Backpack Vacuum Cleaner is ideal for construction sites, workshops, offices, hotels, educational facilities, healthcare environments, facilities management teams, contract cleaning companies and maintenance professionals requiring powerful cordless cleaning performance and maximum operator mobility.
