

Makita 40V Brushless Backpack Vacuum Cleaner (Body Only)

Variant code: 16-VC008GZ02

Makita 40V Max XGT Brushless Cordless Backpack Vacuum Cleaner (DVC265Z) - Body Only

Experience Unmatched Power and Portability for Professional Cleaning

Elevate your cleaning game with the Makita 40V Max XGT Brushless Cordless Backpack Vacuum Cleaner (DVC265Z). Engineered for professionals who demand powerful performance and ultimate freedom, this "Body Only" model is the perfect addition to your existing Makita 40V XGT toolkit. This isn't just a vacuum; it's a mobile cleaning solution designed to tackle the toughest jobs with ease, efficiency, and incredible comfort.

Unleash Superior Suction Power

The heart of this exceptional machine is its high-performance brushless motor, which delivers incredible suction power and extended run time. Powered by Makita's revolutionary 40V Max XGT battery technology, the DVC265Z provides the power of a corded vacuum without the hassle of a power cord. Say goodbye to tripping hazards and limited reach—now you can clean large areas, stairwells, and tight spaces with complete freedom. The advanced brushless motor ensures maximum efficiency, converting more energy into power and less into heat, which means a longer tool life and less maintenance.

Lightweight, Ergonomic, and Built for Comfort

Designed with the professional in mind, the DVC265Z features an ergonomic and adjustable harness that distributes weight evenly across your back, significantly reducing fatigue during long cleaning sessions. Weighing in at a remarkably light weight, this backpack vacuum allows you to move freely and comfortably. The padded straps and back panel ensure a comfortable fit for any user, making it the ideal choice for continuous, professional-grade cleaning tasks.

Advanced Filtration for a Healthier Environment

Your health and safety are a top priority. The Makita DVC265Z features a highly effective HEPA filtration system that captures 99.97% of particulates 0.3 microns or larger. This advanced filtration system ensures that fine dust, allergens, and other harmful particles are contained, providing a cleaner and healthier working environment for you and your clients. The generous 2.0-liter dust bag capacity means fewer interruptions for emptying, allowing you to stay focused on the task at hand.

Versatility and Flexibility at Your Fingertips

This vacuum cleaner is a versatile powerhouse, perfect for a wide range of applications. Whether you're working in a busy workshop, a commercial office, a hotel, or on a construction site, the DVC265Z is up to the challenge. The "Body Only" configuration gives you the freedom to use your existing Makita 40V XGT batteries, saving you money while expanding your tool collection. It comes equipped with a flexible hose and a variety of nozzles to tackle different surfaces and tight corners effortlessly.
