

Makita XGT 40V Brushless Vacuum Sweeper (Body Only)

Variant code: 16-VS001GZ

Makita XGT 40V Brushless Vacuum Sweeper (Body Only) – The Ultimate Cleaning Powerhouse

Powerful, Efficient, and Cordless Cleaning Redefined

Experience the future of clean with the **Makita XGT 40V Brushless Vacuum Sweeper**. This cutting-edge, cordless powerhouse (model GVC01Z) is engineered for professional-grade performance, delivering an unparalleled combination of suction power and sweeping efficiency. Designed for serious users who demand the best, this vacuum sweeper is the perfect solution for tackling a wide range of cleanup tasks on construction sites, workshops, warehouses, and large residential properties.

Unleash Superior Suction and Sweeping Performance

At the heart of the GVC01Z is a powerful **brushless motor**, part of the innovative Makita XGT 40V MAX system. This advanced motor technology provides longer runtime, increased power, and extended tool life compared to traditional brushed motors. The result? A staggering **160 CFM** (Cubic Feet per Minute) of air volume, ensuring superior debris pickup from fine dust and metal shavings to larger items like pebbles and wood chips.

The unique **dual-stage filtration system** captures 99.97% of particles 0.3 microns and larger, meeting HEPA standards. This guarantees cleaner air and a healthier work environment, a critical feature for any professional setting. With a generous 1.9-gallon container capacity, you can work longer without interruptions, maximising your productivity.

Versatility and Ergonomics in a Single Machine

The Makita Vacuum Sweeper isn't just about power; it's also about versatility and user comfort. Its **23-5/8" wide sweeping path** and robust rotating brush quickly and effectively clean both wet and dry debris from various surfaces,

including concrete, asphalt, and wood. The intuitive **three-speed power selection** allows you to optimise performance for different tasks, from delicate cleaning to heavy-duty debris removal.

Designed with the user in mind, this vacuum sweeper features a comfortable, ergonomic handle and large, durable wheels for effortless maneuverability across rough terrains. The compact, foldable design makes it easy to store and transport, saving valuable space in your vehicle or workshop.

The Power of XGT: A New Era of Cordless Freedom

This is a **Body Only** product, meaning it's an ideal addition for anyone already invested in the robust **Makita XGT 40V MAX battery platform**. The XGT system is engineered to deliver the power and runtime of corded tools without the hassle of a power cord. A single XGT battery provides all the power you need to clean large areas, offering complete cordless freedom.

Why Choose the Makita XGT 40V Brushless Vacuum Sweeper?

- **Exceptional Power:** Brushless motor technology delivers unmatched suction and sweeping performance.
- **HEPA-Level Filtration:** Dual-stage filter system for superior air quality and a healthier workspace.
- **High Efficiency:** Wide 23-5/8" sweeping path and large container reduce cleaning time and interruptions.
- **Cordless Convenience:** Part of the **Makita XGT 40V MAX system** for ultimate mobility and power.
- **Durable and Versatile:** Cleans both wet and dry debris from various surfaces with ease.
- **User-Friendly Design:** Ergonomic handle, large wheels, and foldable body for easy use and storage.
- **Body Only:** The perfect, cost-effective way to expand your existing Makita XGT tool arsenal.

Upgrade your cleaning game with the **Makita XGT 40V Brushless Vacuum Sweeper**. Discover the perfect blend of power, efficiency, and cordless freedom, and make every cleanup task a breeze.
