

Nano-Ag Antibacterial 43cm Microfibre Flat Mop – Pack of 5 – Blue

Variant code: 15-104303B

The **Nano-Ag Antibacterial Microfibre Flat Mop** combines the cleaning performance of **microfibre** with the antibacterial properties of **silver Nano technology**. Measuring **43 x 14cm**, the mop is designed for effective floor cleaning and is suitable for use with **spray mopping systems**.

The integrated **Nano-Ag antibacterial technology** helps prevent bacterial growth on the mop and reduces reliance on cleaning chemicals. Robert Scott states that testing has shown bacteria picked up by the mop is significantly reduced or **killed by 99% within 30 minutes**, helping provide a more hygienic approach to routine floor cleaning.

The **washable microfibre construction** allows the mop to be reused, while its **pocket fitting** is designed for attachment to a compatible flat mop frame. A **colour-coded trim** supports cleaning area identification, and this blue version is supplied as a convenient **pack of 5**.

Product Features

- **Antibacterial microfibre flat mop**
- Features **Nano-Ag silver technology**
- Helps prevent **bacterial growth on the mop**
- Testing shows bacteria picked up by the mop is significantly reduced or **killed by 99% within 30 minutes**
- Made using **microfibre yarn**
- Designed for use with **spray mopping**
- **Washable** for repeated use
- Features a **colour-coded trim**
- Uses a **pocket fitting** for attachment to a compatible frame
- Measures **43 x 14cm**
- Individual mop weight of **85g**
- Supplied as a **pack of 5**

Product Benefits

- **Nano-Ag silver technology helps prevent bacterial growth on the mop**

for improved hygiene during floor cleaning

- **Microfibre construction provides effective cleaning while helping reduce reliance on cleaning chemicals**
- **Washable construction enables the mop to be reused for ongoing cleaning applications**
- Designed specifically for **spray mopping applications**
- **Colour-coded trim** supports cleaning area identification and hygiene procedures
- Pocket fitting provides straightforward attachment to a **compatible flat mop frame**
- **Pack of 5** provides multiple mop heads for professional cleaning operations

Technical Characteristics

- **Product Type:** Antibacterial Microfibre Flat Mop
- **Technology:** Nano-Ag Silver
- **Yarn Type:** Microfibre
- **Antibacterial:** Yes
- **Size:** 43 x 14cm
- **Weight:** 85g
- **Frame Fitting:** Pockets Only
- **Cleaning Method:** Spray Mopping
- **Washable:** Yes
- **Colour Coding:** Colour-Coded Trim
- **Colour:** Blue
- **Pack Quantity:** 5 Mops

Applications

The **Nano-Ag Antibacterial Microfibre Flat Mop** is designed for **spray mopping and routine floor cleaning** where reusable microfibre performance and antibacterial properties are required. Its **Nano-Ag silver technology**, washable microfibre construction, **43 x 14cm format** and pocket fitting make it suitable for use with compatible professional flat mop systems.
