Miele GN Type Microfibre Vacuum Bags & Filters - Pack of 5

Variant code: 16-YYY369

Miele GN Type Microfibre Vacuum Bags & Filters are **premium replacement filtration accessories** designed for **compatible Miele vacuum cleaners**. Featuring advanced multi-layer microfibre dust bags and replacement filters, this maintenance kit delivers superior dust retention, powerful airflow and hygienic cleaning performance while helping to protect the vacuum's motor and filtration system.

The high-efficiency microfibre dust bags capture fine dust, allergens, pet hair and everyday debris more effectively than conventional paper bags, maintaining consistent suction throughout the life of each bag. The included replacement filters help optimise air filtration and support cleaner exhaust air, ensuring your vacuum continues to operate at peak performance.

Supplied as a convenient **pack of 5 microfibre dust bags with replacement filters**, this maintenance kit provides a practical and cost-effective solution for routine servicing. Regular replacement helps maximise cleaning efficiency, extend the life of your vacuum cleaner and maintain high standards of indoor air quality.

Product Features

- GN Type replacement microfibre vacuum bags
- Suitable for compatible Miele vacuum cleaners
- Includes replacement filters
- Advanced multi-layer microfibre filtration
- Captures fine dust, allergens and debris
- Maintains powerful airflow and suction performance
- Durable tear-resistant bag construction
