MotorScrubber M-Case Pro Kit - Contains JET3, BLADE, STORM & All Accessories

Variant code: 16-MS3070KIT

MotorScrubber M-Case Pro Kit is a **complete professional deep cleaning and disinfection solution** that combines the power of the **JET3 rotary scrubbing machine**, **STORM touchpoint disinfection system**, and **BLADE spray mop system** within a robust transport and storage case. Designed for facilities that demand exceptional cleaning performance, hygiene control and operational efficiency, this comprehensive kit provides everything needed for effective floor cleaning, touchpoint disinfection and maintenance cleaning.

At the heart of the kit is the **MotorScrubber JET3**, a battery-powered scrubbing machine featuring an integrated solution pump and spray system. Powered by a lightweight **3kg backpack battery**, the JET3 delivers up to **3.5 hours runtime** and a powerful **354rpm high-torque motor**, enabling effective cleaning in confined spaces such as washrooms, behind toilets, under benches and stairways. Its waterproof head and fully adjustable handle provide maximum versatility for specialist cleaning tasks.

The **MotorScrubber STORM** system enhances infection prevention programmes by delivering targeted touchpoint disinfection when used alongside the JET3 backpack system. Designed for proactive virus control, STORM enables efficient disinfection of high-contact surfaces throughout commercial and public environments.

Completing the package is the innovative **MotorScrubber BLADE 2-in-1 Mop System**, which eliminates the need for traditional buckets by delivering fresh cleaning solution at the touch of a button. Featuring a **600ml solution reservoir**, reversible ultra-microfibre pads and an integrated power squeegee, BLADE offers exceptional cleaning coverage while improving productivity and reducing waste.

All components are supplied within the durable **M-Case Pro**, providing organised, weather-resistant storage and transport for machines, accessories and cleaning equipment.
